Award-winning trade fair presentations in this category fulfil marketing and corporate goals at the highest level, presenting products and services according to the CI/CD and creating a multisensory experience for visitors.

These presentations are characterised by an exceptionally high level of creativity and originality, a unique approach to challenges and the intelligent use of a wide range of options offered by live communication. The outstanding design of architecture, graphic communication, media and interactive elements make the meeting of brands, messages and people a one-of-a-kind experience that is worthy of recognition.

Best Stand S – Presentations of up to 100 m²

Best Stand M – Presentations of between 101 m² and 500 m²

Best Stand L – Presentations of between 501 m² and 1000m²

Best Brand Architecture

This category recognises spatial brand presentations such as brand environments, show rooms or trade fair presentations larger than L, that give a brand a spatial dimension and a distinctive character. Premium-quality commercial brand projects, temporary or permanent, become tangible and thus create an identity. They excel in their rigorously consistent use of architecture, communication, light and media. The successful presentation solves functional requirements of brand identity and spotlights the brand.

Best Thematic Exhibition

The Best Thematic Exhibition honours temporary or permanent theme-focused exhibition concepts that represent a means of communicating within a space. These can include exhibitions from the areas of culture, history, technology as well as theme pavilions and parks. They are designed primarily to impart knowledge rather than to promote sales. With their rigorously consistent concept and using the possibilities of spatial presentation, they meet the multidisciplinary requirements of brand identity in an exceptional manner.

Best Store Concept

The Best Store Concept category recognises the design of a brand space. This can be either a permanent or temporary store concept, hospitality facilities, road shows or museums that appeal to consumers. The presentation captivates visitors and successfully combines marketing and architecture. The 360° Customer Journey consistently taps the potential of spaces as experiences so that the benefit they generate emotionalises, activates and motivates users.
